

MedEx Healthcare Compliance Solutions

Boldly distinguish your business. SJV Data Solutions enables you to offer primary source coverage, fewer false positives and powerful continuous monitoring with our MedEx™ Solution.

Healthcare's on Fire. Are You Getting Burned?

Today it's difficult for successful CRAs to avoid being asked about the healthcare space. Healthcare is a \$3.6 trillion industry comprising 18% of the US economy. It's massive. However, CRAs that dare to scale the healthcare mountain experience a complete lack of transparency, service and cooperation from the old ways of doing healthcare related background checks. It's easy to get burned. You need to know what you must know and also what you must not know! Be smart. Get your piece of the healthcare pie by approaching healthcare related screens with a fresh approach, provided by MedEx, that complements, instead of competing with your business.

You have a choice when it comes to your Medical Exclusion and Board Action Data needs

Our MedEx Solution is a cloud-based, data-driven software application that automates and ensures compliance of the personal aspects of medical background screening.
