**Grow Your Business. Add Value. Reduce Risk.**

## Finally, a National Criminal Solution You Can Get Excited About

After years of research and development and some very cool cloud-based, big-data technology, SJV has created a national criminal database like no other. It's complete, covering over 90% of the entire nation with 2 billion plus records and is continuously enhanced with records from our nationwide footprint of automated court scrapers and physical researchers 24 hours a day, 7 days a week.

### Translation—you can't get this anywhere else.

It's real-time and all results are reported in a consistent manner, which means you can access it through SJV's online portal, SJV Connect, whenever you need to. Perhaps best of all, it smashes the price barriers that until now put this kind of national criminal data solution out of reach to all but a select few.

### Key Differentiators

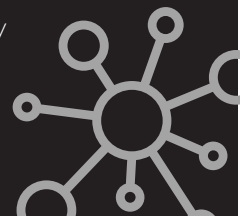

- **Coverage:** More than 2 billion records for over 2,000 data sources covering over 90% of the U.S. population
- **Cleanliness of Data:** Systematically formatted results for easy readability and simplified API integration
- **Cost Efficiency:** You'll like the price, but you'll love the reduction in labor and consolidated supply chain efficiencies
